Sent from my iPad

I am appalled that you are trying to infringe on my private property to own a home protected by national, state and local historic districts. The proposed HB5232 is fueled by some very wealthy residents of East Grand Rapids who are only interested in making more money by tearing down older homes and building McMansions on them. They have no concern about how this proposed bill would affect my home and my neighborhood.

I do NOT want decisions regarding historic districts or repairs to be based on politics, leaving uninformed people the right to make decisions about my home and community. PA 169 works and has served us well, so why "fix" something that is not broken? Why not spend your time and money on vital issues that will benefit all residents instead of catering to the whims of the wealthy?

Needless to say, I adamantly oppose any legislation that will change PA 169!
